Where Creative Magic Begins...

**Embroidery Software that's so easy.  
It's like magic!**

# Creative DRAWings®

Where Creative Magic Begins...

Creative DRAWings® is powerful embroidery software that empowers you to create original designs you want to embroider. Start with a simple line. Add curves, colors and patterns and so much more. Like magic, create your own masterpieces with Creative DRAWings®.

Creative DRAWings® is easy to learn and easy to use. With only a few minutes of hands-on instruction, it is possible for anyone - regardless of skill level - to produce a high-quality design clean of wild stitches and ready to stitch on an embroidery machine.

Almost any clipart or photo can be imported and be instantly converted into a flawless embroidery file. Creative DRAWings® is not a static software which just converts images to stitches. The revolutionary and professional DRAWstitch® technology has been incorporated into Creative DRAWings® to work miracles almost as fast as the blink of an eye.

Creative DRAWings® is much more than digitizing software. It is an interactive product which almost "thinks" for you to help release your creativity. Creative DRAWings® does not require you to buy more expensive add-on digitizing packages as you advance in skill. All the powerful features are in just one package.

We want you to enjoy machine embroidery and not agonize over perplexing software programs that plague the sewing market today. We want you to really USE and have fun with Creative DRAWings®!

SA Retail: R6 900

## COMPATIBLE FILES

### VECTOR FORMATS

- ▼ Corel Presentation Exchange (.CMX)
- ▼ Encapsulated Postscript (.EPS)
- ▼ Enhanced windows metafile (.EMF)
- ▼ Scalable vector graphics (.SVG)
- ▼ Adobe Illustrator (.AI)

### BITMAP FORMATS

- ▼ Bitmap files (.BMP, DIB, RLE)
- ▼ Jpeg files (.JPG, JPEG, JPE, JFIF)
- ▼ Gif file (.GIF)
- ▼ Windows metafile (.WMF)
- ▼ Tif file (.TIF, .TIFF)
- ▼ Png file (.PNG)
- ▼ Icon file (.ICO)

## SAVE YOUR DESIGNS

Use popular file formats to save your designs.

- ▼ Wings Systems (.NGS)
- ▼ Tajima (.DST, .DSZ, .DSB)
- ▼ SWF (.SST)
- ▼ Pfaff (.KSM, .PCS, .PSM)
- ▼ Happy (.TAP)
- ▼ Melco expanded (.EXP)
- ▼ Brother/Baby Lock/Bernina (.PEC, .PES)
- ▼ Husqvarna (.HUS)
- ▼ Husqvarna Viking (.VIP)
- ▼ Viking Designer 1 (.SHV)
- ▼ Janome (.JEF, .SEW)
- ▼ Juki (.M3)
- ▼ Toyota (.100)
- ▼ Mitsubishi HD
- ▼ Barudan FDR

Except for .ngs, these are mainly embroidery machine file formats. You can load them from any digitizing software that supports them or from the embroidery machine which will embroider your design. The .ngs is a powerful file format that can be processed from leading digitizing software (eXPerience, Wings' modular®).

**All formats can be opened with the Wings' modular® Basic module which is included in Creative DRAWings®.**
